FORCE - Cargo Van

Chassis: EC3

FAST, SPACIOUS, AND MANOEUVRABLE

The perfect balance between range and cargo capacity, with 15.5 m³ of space full of possibilities. The FORCE offers a range of 230 to 325 km and a maximum speed of 100 km/h, making it suitable for both urban and interurban operations.

With a length of 7.5 metres, a 120/140 kWh battery, and a powerful 150 kW electric motor, the FORCE offers excellent range, making it a versatile choice for a wide variety of commercial transport applications.

MOVE MORE. CARRY MORE. DO BETTER.

Capacity beyond expectations

With this expanded cargo space, your operations gain unmatched versatility, making FORCE the perfect choice for demanding logistics, construction, or specialized delivery tasks. Experience reliability and capability on every journey - and never worry about space again.

Big box, bold possibilities

The FORCE's impressive H3L4 cargo box unlocks a world of possibilities for transporting bulky loads, thanks to its extra-large dimensions and generous admissible payload. Whether you need to transport oversized items, equipment, or high-volume goods, the FORCE is ready for the job.

Smart energy management

Whether your tasks demand long hours or extended distances, FORCE's advanced energy management systems help optimise range, so you can focus on delivering results.

READY FOR INTENSIVE OPERATIONS

The FORCE vehicle is built for robustness, delivering reliable strength for any kind of operation. Its reinforced structure and advanced engineering ensure it can withstand intensive daily use and demanding work environments, so you can depend on it for every job- big or small.

While FORCE is optimised for efficient transport between cities and towns, its surprisingly tight turning radius makes it equally capable in urban settings. Whether navigating busy streets or manoeuvring in confined spaces, FORCE adapts with remarkable agility, defying expectations for a vehicle of such substantial dimensions.

Designed to handle all types of cargo, FORCE accommodates everything from irregular loads to standardized palletised shipments. This flexibility gives you total control over your logistics, ensuring each transport is as smooth and secure as possible, whatever the cargo or destination.
