eCitybus+

NOT ONLY AN URBAN BUS

The eCitybus+ is created to set a new standard in urban mobility. Designed on the robust FORCE cab chassis, it embodies quality, spacious interiors, and a modern, stylish look that makes it stand out on the streets. It offers supreme passenger comfort, with an ergonomic layout that ensures a smooth and enjoyable journey for everyone on board.

At the same time, the vehicle has been optimized for fast and efficient operation, allowing operators to maximize productivity while maintaining ease of use. The result is a bus that combines elegance, functionality and practicality,

100% Electric

QUALITY & COMFORT

Low-floor, fast operations

With two wide doors, the bus guarantees a rapid and obstacle-free passenger flow, and its low-floor design ensures full accessibility for wheelchairs, making every operation faster, safer, and fully inclusive.

Safety first

Equipped with the latest ADAS technologies and advanced safety systems, the bus ensures maximum protection and assistance for every occupant, from the driver to the passengers.

High standards

Finished with premium materials and crafted under the highest standards, the bus delivers exceptional quality in every detail, combining durability, elegance, and a refined sense of comfort.

INTERIORS

The interiors of the bus are designed with premium quality in mind, using first-class materials that not only provide a refined look but also guarantee long-lasting durability. All components are carefully selected to be resistant to abrasion and vandalism, ensuring that the vehicle maintains its sophistication and functionality even under intensive daily use. This commitment to quality makes the interior both comfortable and robust, elevating the passenger experience while protecting the operator's long-term investment.

This vehicle features panoramic windows that flood the cabin with natural light, creating a spacious and pleasant environment. Its generous width allows passengers to move comfortably and quickly inside, whether seated or standing, enhancing fluid circulation at every moment, perfectly aligned with the demands of modern urban transport.

Dimensions			
Total Length	7,583 mm	Wheelbase	4,325 mm
Total Width	2,025 mm	Front Overhang	1,014 mm
Total Height	2,930 mm	Rear Overhang	2,244 mm

	Weights	
	Static	Admissible
Front Axle	1,994 Kg	2,500 Kg
Rear Axle	2,792 Kg	4,600 Kg
Total	4,786 Kg	6,400 Kg

Performance	
Battery Capacity	120 / 140 / 170 kWh
Range (SORT)	309 km (140 kWh)
Maximum Speed	100 km/h
Maximum Slope	18 %
Turning Diameter	< 17.8m

Charger Specifications Requirements			
DC Charging		AC Charging	
Connectors	CCS2	Connectors	AC type 2
Power Input	80 kW	Power input	min. 6.6 kW @ single-phase. min. 22 kW @ three-phase.
Output Voltage Range	min. 750 Vdc		

* When charging the vehicle, the charger must meet these specifications.

PERFORMANCE

Motor		Brakes & Suspension	
Engine type	PMSM	Braking system	Hydraulic
Nominal power	100 kW	Front	Brakes Disc
Peak power	150 kW		Suspension Transversal Leaf Spring
Nominal torque	340 Nm	Rear	Brakes Drum
Peak torque	1000 Nm		Suspension Pneumatic

ADAS & Active safety	
ABS - Anti-lock braking system	Yes
ESC - Electronic stability control	Yes
TCR - Traction control	Yes
MOIS - Cyclist collision alert	Yes
BSIS - Blind spot information system	Yes
RCDS - Reversing detection	Yes
TPMS - Tyre pressure monitoring system	Yes
AEBS - Advanced emergency braking system	Yes
LDWS - Lane departure warning system	Yes
Cybersecurity	Yes
ISA - Intelligent speed assistance	Yes
AIS - Alcohol interlock facilitation	Yes
DDAW - Driver drowsiness and attention warning	Yes
ADDW - Advanced driver distraction warning	Yes

Equipment			
Driver		Exterior	
Leather seat	Yes	Panoramic windows	Yes
Pneumatic seat 6-way adjustable	Optional	Electric passenger's door	Yes
Independent door	Yes	Double rear door	Yes
Driver airbag	Yes	Steel rims	Yes
Multifunction steering wheel	Yes	Interior	
Passengers		Ergonomic handrails	Yes
High Quality ergonomic seats	Yes	High quality interiors	Yes
3-point seatbelts	Optional	Acoustic insulation	Yes
High-resistant floor	Yes	Interior LED lighting	Yes
High quality finishes	Yes	Ergonomic design	Yes
Accessibility		Safety screens	Yes
Wheelchair space with fasteners	Optional	Ventilation skylight	Yes
Wheelchair lift at the rear	Optional	Emergency exits in ceiling and sides	5
PMR seat	Optional	Multimedia	
Quick-release seats	Optional	Surround speakers	Yes
Climate control		Radio + Bluetooth	Yes
Independent driver climate control	Yes	Apple CarPlay & Android Auto	Yes
Independent passenger climate control	Yes	Other elements	
Side air ducts	Yes	Rear-view camera & parking assist	Yes
Convection heating	Yes	Front & rear exterior LED screen	Yes
Forced an natural ventilation	Yes	Rear buzzer	Yes
Protection		First aid kit	Yes
Chassis with KTL treatment	Yes	Fire extinguisher	Yes
Chassis with anti-gravel paint	Yes	Central Lock	Yes
Bodywork all painted	Yes		

All the equipment mentioned is optional and customizable. The FORCE base vehicle is ready for any configuration and the bodybuilder can seamlessly apply any new design of its finishes to adapt the final vehicle to every client's specific needs.

PREMIUM COMFORT.
URBAN ACCESSIBILITY.
